ECS

EQUUS COMPUTE SOLUTIONS

5G AND CYBERSECURITY SOLUTIONS FOR HEALTHCARE

DIGITAL INNOVATION AT YOUR SERVICE.

Solution: ECS Edge Connector
Market: Healthcare

Overview

The ECS Edge Connector is a revolutionary solution designed to meet the critical 5G connectivity and cybersecurity needs of healthcare environments. By utilizing private 5G networks, it ensures high performance and robust security, vital for managing sensitive patient data and healthcare operations.

Key Features

- **Intel® Atom C3558 Processor:** Delivers reliable and high-performance computing for healthcare applications.
- **Zscaler Zero-Trust Exchange Platform:** Secure, zero-trust environment safeguards against cyber threats.
- **Option of 4 and 8 Core Structure:** Offers scalability to meet the varying demands of healthcare facilities.

Healthcare Benefits

- **Enhanced Connectivity:** Seamless 5G connectivity supports real-time data transfer and communication, essential for telemedicine and remote monitoring.
- **Improved Cybersecurity:** Integrated Zscaler Zero-Trust Exchange provides robust protection against cyber threats, ensuring the security and integrity of patient data.
- **Scalability:** Flexible core structures for scalable deployment, accommodates the growth needs of healthcare facilities.
- **Efficiency:** Optimizes network performance, reducing latency and improving the efficiency of healthcare operations.
- **Cost Savings:** Enhanced security and connectivity reduce downtime and associated costs, increasing operational efficiency.

DIGITAL INNOVATION AT YOUR SERVICE.

Solution: ECS Edge Connector
Market: Healthcare

Healthcare Applications

The ECS Edge Connector is designed to enhance various healthcare functions:

↻ **Telemedicine:** Supports high-speed and secure data transfer for remote consultations and patient monitoring.

↻ **Electronic Health Records (EHRs):** Ensures the secure and efficient management and transmission of patient records.

↻ **Medical Imaging:** Facilitates the rapid and secure transfer of large medical imaging files.

↻ **Network Reliability:** Maintains consistent and reliable network performance, essential for uninterrupted healthcare services.

The ECS Edge Connector offers a comprehensive solution for improving 5G connectivity and cybersecurity in healthcare environments. By integrating advanced technology and secure network infrastructure, it helps healthcare facilities optimize performance, enhance security, and efficiently manage patient data.

ABOUT ECS

ECS designs, builds and deploys the digital infrastructure that keeps companies relevant, viable and growing. From individualized computing, data center infrastructure and liquid cooling to AI enablement, telecom systems and 5G management, our customer-first approach delivers solutions that form, fit, and function seamlessly.
